Vinh Nguyen

Windermere Avenue • Toronto, M6S 3L6 • vinh.nguyenhuynhquang@utexas.edu • +1 647 4697919

Education

University of Texas at Austin Austin, TX
Master of Science in Artificial Intelligence [GPA: 3.9/4.0] May 2026
A member of The Honor Society of Phi Kappa Phi at UT Austin Chapter
Relevant Coursework: AI in Healthcare, Deep Learning, Advances in Deep Learning, Optimization, Ethics in AI, Reinforcement Learning.
- *AI in Healthcare:* Ada-002 model fine-tuning for heart disease prediction | Brain Tumor Segmentation using UNET and RESNET-34 on MRI modalities | Self-Supervised Learning using Contrastive Learning for Pneumonia prediction on X-ray.
- *Advances in Deep Learning:* Fine-tuning a big net using techniques: LoRa, Half Precision, and Quantization | Training a patch-based Autoencoder with Binary Spherical Quantization for compression and using its latent tokens to train an Autoregressive model | Using a pre-trained LLM SmolLM2-360M model to build a CoT model with in-context learning approach, a supervised fine-tuning model, and a CoT with RLFT approach (Rejection Learning Fine-tuning using SmolLM2-1.7B) | Building a data pipeline to extract training data to fine-tune a pre-trained VLM SmolVLM-256M.

Centennial College Toronto, ON
Advanced Diploma in Software Technology in AI [GPA: 4.43/4.5] Aug 2024
CCSAI International Student Scholarships
Relevant Coursework: Supervised Learning, Unsupervised Learning, Deep Learning, NLP, Cloud ML (AWS).
- Cloud ML: Built a Le Petit Monde App for text and voice translation using AWS services: S3, Rekognition, Translate, Transcribe, Polly, and DynamoDB.
- NLP: Sentiment prediction based on Amazon customer reviews using TextBlob and VADER Sentiment | Recommender System for music using content-based filtering.

FPT Aptech Ho Chi Minh City, VN
Professional Diploma in Management Information Systems [GPA: 8.8/10] Nov 2021

Foreign Trade University Ho Chi Minh City, VN
Bachelor's in Economics Nov 2011

Experience

Centennial College - WIMTACH Scarborough, ON
ML Research Student Jul 2024 – Aug 2024

- Led a 7-week project to study the OpenOximeter Repository dataset and develop ML models to enhance the SpO2 estimation from oximeter devices by considering demographic and dermatological factors.

New Balance Mississauga, ON
Operational Data Analyst (Intern) Jan 2023 – Aug 2024

- Built automation tools to generate daily reports from raw data exported from different systems for different departments (Planning, Sales, and Finance) using Excel: Data Model, Power Query, Power Pivot, and VBA. This saved approximately hours a day to do the report manually and increased the accuracy due to human error.
- Collaborated with the Data and BI team in the US to validate data integrity and build a business dashboard on TIBCO Spotfire.

New Balance Ho Chi Minh City, VN

Process and Technology Analyst Apr 2021 – Aug 2022

- Worked with global T1 and T2 factories to investigate the Standard Operating Procedures (SOPs) and data for new manufacturing processes.
- Collaborated with global Product and Costing teams to design framework and calculation tools.

Honda HEAD Phat Thinh Ho Chi Minh City, VN

Project Manager Sep 2019 – Aug 2020

- Led a small team to build and launch an online management system to keep track of business activities of sales, marketing, and inventory across 6 showrooms, expanded e-commerce sales channels, and standardized working procedures.

Seedcom (Start-up) Ho Chi Minh City, VN

Operation Manager Apr 2018 – Aug 2019

- Built a sourcing team consisting of product development, product design, costing, planning, material, and molding.
- Established workflow with factories and sub-contractors.
- Coordinated with the Board of Directors for budget planning and branding activities.

adidas Sourcing Liaison Office in Vietnam Ho Chi Minh City, VN

Costing Specialist Feb 2012 – Apr 2018

- Managed product costs from development milestones to production milestones.
- Acted as key user role and trainer for product and material systems: PLM, SATRA, ShoesCost, ProCost.
- Verified tooling forms and ledger claims of development and production in terms of cancellations, dropped projects, air freight, and MOQ.
- Conducted data mining to improve cost efficiency and savings.

Skills

- **Programming Language**: Python, PyTorch.
- **Database:** SQL, MongoDB.
- **Data Visualization:** Power BI, Tableau, Tibco Spotfire.

Volunteers & Activities

Hospital for Tropical Diseases Ho Chi Minh, Vietnam

Volunteer May 2021 – Sep 2021

- Researcher: cleaned, wrangled and prepared data for the research on the efficacy of Remdesivir for Hospitalized Covid-19 patients.
- Transporter: oxygen cylinder transporter at ICU during the peak of Covid-19 pandemic in Vietnam.

The Vietnam Swans Ho Chi Minh, Vietnam

Player and Team Member Jan 2016 – Aug 2022

- Were an active player in regular matches and tournaments and a team coordinator.
